AND INDEPENDANT LUMBER RETAILERS

WHAT SETS SNUG COTTAGE HARDWARE APART IS OUR COMMITMENT TO OFFERING PRODUCT THAT IS EXTREMELY RUST RESISTANT. **WE NEVER POWDER COAT DIRECTLY OVER MILD STEEL.** WE POWDER COAT ALL OF OUR HOT DIPPED GALVANIZED PRODUCT IN THE UNITED STATES BY AN AUTOMOTIVE AND MILITARY ACCREDITED POWDER COATING COMPANY.

ALL PRODUCT IS SUBJECT TO A **14 STAGE** IMMERSION AND SPRAY WASHING PROCESS, A ZINC PHOS WASH FOR ADDED RUST PROTECTION, AN **"E COAT"** APPLIED (THIS IS THE NORM FOR RUST PROTECTION IN THE AUTOMOTIVE INDUSTRY), AND FINALLY A HIGH QUALITY UV RESISTANT POLYESTER POWDER COAT IS APPLIED PRIOR TO HEAT CURING.
